

*The Campaign to Establish the*

**Robert J. Churchill, M.D.  
Faculty Endowment**

In support of its ongoing efforts to recruit and retain outstanding leaders, scholars and teachers, the Department of Radiology is embarking on a campaign to establish the Robert J. Churchill, M.D. Faculty Endowment.

Dr. Churchill joined the MU School of Medicine in 1987 as chair and professor of radiology. While chair, Dr. Churchill recruited a full complement of radiologists, led a growing radiology training program and directed a powerful research program.

During his 25-year tenure at MU, Dr. Churchill served in many leadership positions, culminating with his appointment as Hugh E. and Sarah D. Stephenson Dean of the Medical School in 2009.

Your gift to the Robert J. Churchill, M.D. Faculty Endowment will assist the Department of Radiology in recruiting and retaining an exceptional faculty member, thereby recognizing Dr. Churchill's numerous contributions. An endowed faculty position is not only one of the most important honors the University can bestow upon a faculty member, it also provides the appointed faculty member with an enduring resource to sustain his or her teaching and research.

The MU School of Medicine invites current and former students, department alumni, colleagues and friends to invest in the establishing of this fund. Not only are you celebrating the work of Dr. Churchill, you are investing in future advances in radiology at MU.

If you have questions about ways to support this fund, please contact Jennifer McNay, Director of Advancement, [mcnayj@health.missouri.edu](mailto:mcnayj@health.missouri.edu); 573-882-6100.
